

GRIFFIN SCHOOL DISTRICT #324 BUS SCHEDULE INFORMATION

The AM and PM school bus routes have been posted to the transportation website. Many of the bus routes have been modified this year. The **route schedules are preliminary and subject to time changes** throughout the year.

- Students should always be at the bus stop five minutes prior to the expected bus arrival time and they should not be alarmed if the bus is later than anticipated. If you live on one of the main roadways, you can expect one or more buses to pass your children before one stops to pick them up. This occurs due to limited areas for the buses to turn around and the high volume of students living in some neighborhoods. Your children will be given a bus assignment based on your home address, allowing us to balance the number of students on each bus and the length of ride (as much as efficiently possible).
- The first week of school students may arrive home later than anticipated. We make every effort to ensure students are on the correct bus prior to leaving the school grounds, sometimes causing bus departure to be later than normal.
- If you become concerned, please feel free to call Griffin Transportation, 866-4544. Our staff will contact the bus driver for their location. With patience and barring any unforeseen difficulties, we should have the buses on schedule during the second week of school.
- Wednesday Enrichment Classes begin September 11th. Unless children are enrolled in an enrichment class they should arrive at their PM destination approximately one hour and ten minutes earlier each Wednesday.

CHECK THE TRANSPORTATION WEBSITE <http://griffinschool.us/departments/transportation>

Griffin Transportation is looking forward to another “safe transportation” year with your children. Our continuing goal is to provide a comfortable, safe atmosphere for students. Please review this information with your children prior to and throughout the school year.

PICKING UP AFTER SCHOOL?

- For student safety and accountability, please report to the school office when it is necessary to pick your student up after school. If your student is already on the bus, office staff will contact the school bus driver and your student will be directed to the office to meet you.

DISPLAY YOUR ADDRESS!

- School bus drivers must be able to read your address from both directions of the street and the numbers should be recognizable from up to 100 feet. *The Griffin Fire Department offers address markers that work perfectly, not to mention it allows you to be located if an emergency occurs at your home! To order new address markers call 866-9000.*
